Your "Re-Calc Exam 1" score is your new Exam 1 score. If you did not redo the exam, or you scored lower on the redo, then this is your original exam score.

If you scored higher on the redo than the original exam, then your score is calculated as:

$(x+x+y)/3$ , where x is your original score and y is your redo score.

Grading Scale (+/- grades not shown)

A	90-100
B	80-89
C	70-79
D	60-69
F	59 or less

Note: Your grade is based on your actual scores. I reserve the right to correct any errors on this posting.

For questions about the class grading policy, please see the course syllabus.
