**Note: Your grade is based on your actual scores. I reserve the right to correct any errors on this posting.**

The scores shown here include 4 points that I added because a large percentage of the class missed two of the questions over "other readings" from early in the semester.

However, prior to adding the 4 points, I entered your midterm grades. This means that, for many of you, your midterm grade will appear lower than the score indicated on this page.
