

## TAKE-HOME ASSIGNMENT 2

**Instructions:** For each of the three topics below, write a short essay (between  $\frac{1}{2}$  and  $\frac{3}{4}$  page, single space, 12 pt font). Please use a separate sheet of paper for each essay. Your grade will be based on completing the assignment, as well as content. You may choose only two of the topics for me to grade on content. If you would like to do this, then write a big slash across the essay you wish me to not grade on content.

**The completed assignment is due at the beginning of class on Tuesday, May 30. Any assignment turned in after this time, prior to the final exam, receives a 50% penalty. No late assignments accepted after the Final Exam begins.**

1. Explain the gist of Walker's discussion of "the social costs of gambling." What do you see as the most serious flaw with his perspective?
2. Explain the gist of Grinols's discussion of "the social costs of gambling." What do you see as the most serious flaw with his perspective?
3. Based on whatever evidence you've been exposed to in this class or elsewhere, do you think addiction is a disease, or a choice? Explain your perspective.
